CANDIDATE STATEMENT

I humbly present my candidacy to join the UIA Council and represent Region V, offering the committed contribution of an enthusiastic architect with more than 15 years of experience in the profession. I hope to promote responsible architecture that constantly aims for a balance between modernity, diversity and sustainable development.

Over the past few years, I have had the chance to work on innovative projects that have promoted social architecture and well-being, aiming to have a positive impact on community life. To work on the UIA Council would be an honour as well as an opportunity to make use of all I have learned from these projects to support the efforts of the organisation in promoting quality architecture and responsible urban planning that champions a multipolar vision of the world and its distinctive local features, all whilst ensuring greater inclusivity through solutions that are adapted to the specific needs of each community.
